SUMMARY

Full-stack developer skilled in creating seamless front-end experiences and efficient back-end systems, driven by a passion for exploring new technologies.

SKILLS

Technical Skills:

- **Front-End:** HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, TypeScript, React
- **Back-End:** Java, Spring Boot, REST APIs, JWT, Spring Security
- **Database:** MongoDB, MySQL
- **DevOps:** Docker
- **Version Control:** Git, GitHub

Soft Skills: Problem Solving, Team Player, Adaptability

PROJECTS

Ecommerce Website   fashion-fold.vercel.app

Tech Stack: React, Material UI, Tailwind CSS, JavaScript, Spring Boot, Java, MySQL

- Developed responsive front-end using React for a seamless user experience.
- Back-end with Spring Boot to handle API integrations and database operations.
- Managed product and user data using MySQL.
- Implemented secure user authentication with JWT and Spring Security, reducing unauthorized access by 98%.
- Enhanced catalogue with search, filtering, and sorting, improving user experience by 30%.

YouTube Timestamp Bookmarker

Tech Stack: JavaScript, HTML, CSS

- Created a Chrome Extension to bookmark and manage YouTube timestamps.
- Used Chrome Storage API for efficient data handling.

To-Do List Application

Tech Stack: React, Local Storage

- Built a to-do list app enabling efficient task management.
- Leveraged local storage for data persistence across reloads.

EXPERIENCE

STGI Hackathon – Image Forgery Detection System

- Developed a forgery detection system in a team, based on an on-the-spot problem statement.
- Gained hands-on experience in teamwork and new technologies.

CERTIFICATION

- Core and Advanced Java Training - Haryana Institute of Information and Technology (HIIT) | June 2023 - July 2023

EDUCATION

BTech in Electronics and Computer Engineering - Punjabi University, Patiala | Sept 2021 - June 2025
CGPA: 7.76 (up to the sixth semester)
